

Press Release
December 04th, 2025

**Mitsubishi Chemical Corporation (MCC)
PMMA Business Department &
ACL (Ambica Corporation Limited)
to establish massive local stock point in India for
PMMA Resin ‘**ACRYPET™**’
with 10,000 MT annual Storage Capacity
| Operational by January 2026**

Mumbai, India — ACL (Ambica Corporation Limited), in strategic partnership with Mitsubishi Chemical Corporation (MCC) PMMA Department proudly announces the establishment of a dedicated stock point for PMMA (Methacrylic Resin) ‘**ACRYPET™**’ in India.

Despite a challenging global business environment, **ACRYPET™** PMMA sales in India this financial year is projected to exceed nearly 10,000 MT — this strong sales figures showcases Indian PMMA buyers confidence in **ACRYPET™** and ACL’s strong distribution network. The new stock point will strengthen existing sales, enable faster, more reliable access to material, and support significant expansion across India.

Major Benefits for Indian PMMA Buyers:

Free Delivery Across India — All deliveries from the new ACL **ACRYPET™** stock point will be completely free of charge for ACL VIP loyal customers anywhere in India. *

This Free Freight service from local **ACRYPET™** stock point is being hugely welcomed by Indian PMMA buyers as “a value-added service” which no other PMMA supplier in India provides. This helps Indian PMMA Buyer’s to save on PMMA material but also huge savings on inland road/rail freight to get material delivered directly to their factory,

#	Additional Benefit from ACL ACRYPET™ Indian stock point:
1	Reduced Ocean Transit Lead Times — Minimizes dependency on overseas shipments, ensuring smooth, uninterrupted supply.
2	Faster Delivery & Better Control — Immediate access to ready stock for efficient production planning and stable schedules.
3	Stable & Consistent Quality — Direct access to MCC's globally trusted ACRYPET™ resin.
4	Technical Support & Collaboration — ACL's local technical support enables closer engagement during product development, new trials or troubleshooting.
5	Material Availability During Peak Demand — Strategic Allocation ensures timely supply when needed most.
6	Confidence in Brand & Network Strength — Even in a weak global environment, ACRYPET™ PMMA remains a trusted choice among Indian PMMA buyers due to its reliability and strong customer service within India.

Which Indian industries will benefit?

This Indian local stock point initiative has been enthusiastically welcomed by key industry segments, including Acrylic sheet manufacturers, Acrylic Rod producers, Furniture & Signage industry, Medical and most important Automotive PMMA customers.

PMMA Buyers are eagerly awaiting their first supply of **ACRYPET™** from the new local stock point, especially with the added benefit of free delivery.

ACL Managing Director, Mr. Kuntal Sanghvi:

“We believe in growing with our customers and growing with India.

Indian manufacturers need Stable supply, Japanese quality, and timely delivery along with competitive price!

*This new **ACRYPET™** warehouse will reduce shipping uncertainties and give Indian PMMA users the advantage of ready stock availability — now with free delivery across India for all ACL VIP Members. Idea is to make our customers experience the convenience so they can focus on their business development activities and not waste resources on time-consuming activities like Ocean Logistic, customs clearance, transport booking and freight negotiations etc.*

This is what I call truly Value-added customer service.”

Mitsubishi Chemical Corporation PMMA Business Department:

*“India is a strategic growth market for **ACRYPET™**. This Indian stock point will enhance supply chain reliability and reinforce our commitment to quality and customer satisfaction. Our partnership with ACL has always been fruitful and is built on strong mutual trust & top performance, and this local stock point initiative further strengthens our collaboration to serve Indian customers better with ACL.*

We have many exciting projects lined up with ACL to expand the India market together.

This initiative reflects the shared vision of ACL and MCC to empower customers with dependable access to world-class materials — faster, more affordable, and more customer-centric than ever.
